# Superior Interior Lighting Solution

## Guardian Downlight

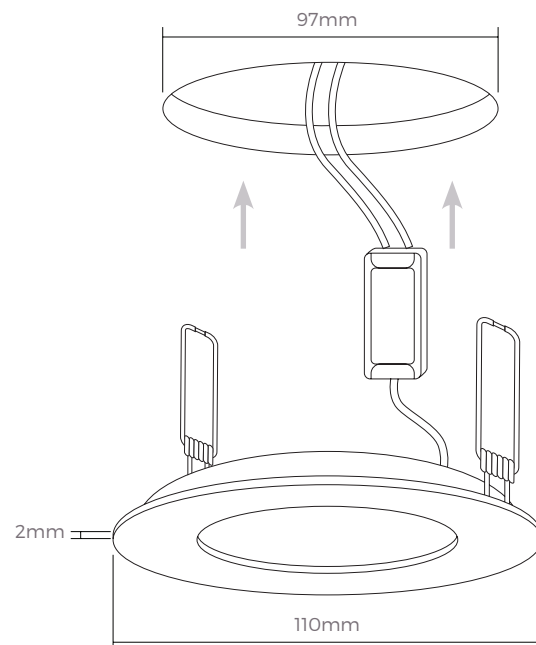

These top of the range downlights require no ventilation, the ultra slim design makes it ideal for low void depths so they are the perfect solution for the Guardian Solid Roof.

They are fitted without the need to penetrate the 25mm insulation layer and vapour barrier eliminating any drafts. The LED unit produces little heat so will not overheat in the cavity.

Downlight Technical Specification	
Light Source	LED
Dimmable	Yes
Max Wattage	9W
Lumens	460
Voltage	240
Fire Rating	30, 60 and 90 minutes
Hours	30000
